## 2-Cell AA Flashlight Lampe torche à 2 piles AA (LR06) Linterna de 2 pilas AA

Model Number: M2A98H  
Part Number: 106-000-361

413-000-067 7/02  
PURPLE

### FEATURES

- Durable Aluminum Alloy Case
- Limited Lifetime Warranty  
Detailed warranty and operating instructions are enclosed.
- Light Beam is Adjustable from a Wide Flood to an Intense Spot (1)
- Includes a Spare Bulb in the Tail Cap (2)
- Includes two AA cell Energizer® alkaline batteries.
- Durable multipurpose belt holster

### CARACTERISTIQUES

- Boitier durable en alliage d'aluminium
- Garantie à Vie Limitée.  
Détails de la garantie, carte d'enregistrement et instructions d'emploi ci-joints.

- Lumière réglable : du faisceau large au point lumineux très brillant (1)
- Contient une ampoule de rechange dans le capuchon d'assemblage. (2)
- Contient deux piles alcalines Energizer® taille AA.
- Étui de ceinture solide tous usages.

### CARACTERISTICAS

- Estuche duradero de aleación de aluminio
- Garantía Vitalicia Limitada.  
Se adjunta la garantía detallada, instrucciones de registro y de funcionamiento.

- El rayo de luz es ajustable desde una amplitud grande hasta un rayo intenso. (1)
- Incluye un foco de repuesto en la tapa trasera (2)
- Incluye dos pilas alcalinas tamaño AA Energizer®
- Funda para cinturón, durable y de uso múltiple.

### Candle Mode - Eclairage vertical de type bougie - Modalidad de vela

Mini Maglite® flashlights convert quickly into candle mode in three easy steps. Step 1: Unscrew flashlight head. Step 2: Place head down on stable flat surface. Step 3: Set flashlight barrel into head.

Les mini-lampes de poche Mini Maglite® peuvent passer rapidement au mode bougie en trois étapes rapides : 1) Dévissez la tête de la lampe. 2) Placez la tête, tournée vers le bas, sur une surface plate et stable. 3) : Fixez le corps de lampe dans la tête.

Las linternas Mini Maglite® se convierten rápidamente a la modalidad de vela en tres sencillos pasos: Paso 1: Desatorille la cabeza de la linterna. Paso 2: Coloque la cabeza en una superficie plana y estable. Paso 3: Inserte el cilindro de la linterna en la cabeza.

Step 1

Step 2

Step 3

The Mini Maglite® 2 cell AA flashlight is covered by one or more pending patent applications and U.S. Patent, Nos. 4,577,263; 4,656,565; 4,658,336; 4,851,974; 4,899,265; 4,942,505; 5,003,440; 5,113,326; 5,143,441; 5,207,502; 5,226,722; 5,293,307; 5,349,506; 6,135,611; 6,170,960 and by foreign patents.

Flashlight designed, manufactured, and patented in the U.S.A.

The distinctive shapes, styles and overall appearances of all Mag Instrument® flashlights, and the circumferential inscriptions extending around the heads of all Mag Instrument® flashlights, are trademarks of Mag Instrument, Inc. The circumferential inscription on the head of every flashlight signifies that it is an original MAG® flashlight and part of the MAG® family of flashlights.

**INSPECTION AND MAINTENANCE:** For prolonged life and efficiency, it is necessary periodically to inspect and perform preventative maintenance on your flashlight as follows: **1. Inspection** - Any battery may leak caustic solutions or gases which can corrode the inside of your flashlight. You should remove the batteries at least once a month and visually inspect the inside of the flashlight for signs of corrosion. If corrosion is seen, follow the instructions in the HOW AND WHEN TO MAKE A WARRANTY CLAIM section. **2. Separate Storage of Batteries** - If your flashlight is used infrequently, e.g., once a month or less, it is recommended to remove the batteries and store them separately. This helps guard against corrosion and may also prolong battery life. **3. Maintenance** - Place a small amount of petroleum jelly on all threads and rubber O-rings every six months.

**TROUBLESHOOTING: 1. Flashlight failure** - Check the lamp and the batteries. If the lamp has burned out, be sure its replacement was designed specifically for the battery voltage output. **2. Flashlight does not turn on or stay on** - Check the tail cap. The metal surfaces contacting the barrel, tail cap and spring assembly should be shiny metal without obstruction between them. Any corrosion formed by a foreign substance should be carefully removed. **3.** If all of the above steps have been followed and the flashlight still does not perform properly, follow the steps in the HOW AND WHEN TO MAKE A WARRANTY CLAIM section, or see the Customer Service Section at [www.maglite.com](http://www.maglite.com) or contact our Warranty/Repair facility: Tel: Outside CA (800) 283-5562, Inside CA (909) 947-1006, Fax: (909) 947-5041.

**WARNINGS:** Any battery may leak harmful chemicals which may damage skin, clothing, or the inside of the flashlight. TO AVOID RISK OF INJURY, DO NOT LET ANY MATERIAL LEAKED FROM A BATTERY COME IN CONTACT WITH EYES OR SKIN. Any battery may rupture or explode if put in a fire or otherwise exposed to excessive heat. TO AVOID RISK OF INJURY, DO NOT EXPOSE BATTERIES TO EXCESSIVE HEAT. To reduce the risk of personal injury or harm to your flashlight, take the following precautions: • Use only alkaline batteries from a reputable manufacturer. • Do not use different brands of batteries in the same flashlight. • When replacing batteries, always replace the whole set. • Do not use rechargeable or reuseable alkaline batteries. • Do not try to recharge batteries that are not specifically designed to be recharged. • Always install batteries with the "+" end facing the head end of the flashlight and the "-" end facing the tailcap end of the flashlight. • Do not allow children to install batteries unsupervised. • Follow battery manufacturer's instructions as to proper handling, storage and disposal of batteries. • Use of a replacement lamp of improper dimensions or specifications may cause shorting, overheating or other hazard. Use only the recommended Mag-Lite® replacement lamp or its technical equivalent. • Carefully follow the steps listed under INSPECTION AND MAINTENANCE.

**LIMITED LIFETIME WARRANTY** Mag Instrument, Inc. (Mag) warrants to the original owner that this flashlight is free from defects in parts and workmanship for the life of that owner. Mag or an authorized Mag Warranty Service Center will, free of charge, repair the flashlight or, at its option, replace a defective flashlight or component. (Mag does not warrant the future availability of any particular colors, markings or decorations, and reserves the option to replace a custom flashlight with a standard flashlight.) Registration is not required for warranty coverage. This warranty is in lieu of all other warranties and conditions, express or implied.

**EXCLUSIONS:** This warranty does not cover any of the following: **1.** Battery exhaustion; **2.** Battery leakage; **3.** Lamp burnout; or **4.** Damage to or failure of the flashlight or any component thereof due to alteration, misuse, battery leakage or lack of maintenance.

**MAG DISCLAIMS ANY RESPONSIBILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.** Some jurisdictions in Canada and the United States do not allow exclusion or limitation of implied warranties, incidental or consequential damages and/or limitations on transferability, so the above limitations and exclusions may not apply to you.

**HOW AND WHEN TO MAKE A WARRANTY CLAIM: 1.** In case of lamp burnout or battery exhaustion, do not return the flashlight to Mag but replace the lamp or batteries. You can purchase replacement lamps directly from Mag or from most retail outlets where Mag flashlights are sold. **2.** If the flashlight has been damaged by leakage of batteries, do not return the flashlight to Mag but determine what brand of battery caused the damage and follow the battery manufacturer's instructions about how to make a damage claim. **3.** For warranty returns: Send the flashlight (postage or shipping prepaid) to Mag Instrument, 1721 East Locust Street - 51453, Ontario, California, USA 91761-7769, Attention: Warranty/Repair Department, or to an authorized Mag Warranty Service Center. For the location of an authorized Mag Warranty Service Center in your area, consult the retailer where you purchased the flashlight or see the customer service section at [www.maglite.com](http://www.maglite.com). For your protection and to expedite handling and/or postal claims, we recommend that all returns be insured and sent Certified and/or Return Receipt Requested.

In Canada and the United States this warranty gives you specific legal rights, and you may have other rights which vary from state to state and from province to province. Where any term of this warranty is prohibited by the law of any jurisdiction, such term shall there be null and void, but the remainder of this warranty shall remain in full force and effect.

## 2-Cell AA Flashlight Lampe torche à 2 piles AA (LR06) Linterna de 2 pilas AA

\* Item 5 inserts into item 1 \* La pièce 5 doit être insérée dans la pièce 1  
\* Insert the piece 5 dentro de la pieza 1

Thank you for purchasing a Mini Maglite® flashlight. To register your new Mag® flashlight visit our website at [www.maglite.com](http://www.maglite.com), from our home page just go to "Register Your Flashlight". To view the entire product line click on "The Maglite® flashlight". Please review all the information contained in this pamphlet.

**OPERATION:** Large end of battery spring must be snapped into tail cap. Always install batteries with the "+" end facing the head end of the flashlight and the "-" end facing the tail cap end of the flashlight. Switch - Twist head. Flood To Spot - Rotate head of flashlight to adjust from a wide flood beam to an intense spotlight. Reverse to shut off. Candle Mode - Unscrew head of flashlight. Invert head and place tail end of flashlight into the inverted head. Flashlight will act as a candle. Changing The Lamp - Unscrew the entire head assembly and gently pull lamp from socket. Make sure new lamp pins are straight; insert into socket. There is a spare lamp in tail cap.

Merci d'avoir acheté une lampe de poche Mini Maglite®. Pour faire enregistrer votre nouvelle lampe de poche Mag® flashlight, allez à la page d'accueil de notre site web [www.maglite.com](http://www.maglite.com). Passez ensuite à « Register Your Flashlight » (« Faites enregistrer votre lampe de poche »). Pour afficher toute notre gamme de produits, cliquez sur « The Mag-Lite® flashlight » (« La lampe de poche Mag-Lite® »). Veuillez lire ce dépliant au complet.

**MODE D'EMPLOI:** Le bout large du ressort de la pile doit être inséré et fixé dans le capuchon d'assemblage. Toujours installer les piles avec le côté <<+>> vers la tête de la lampe torche et le côté <<->> vers le capuchon à vis de la lampe torche. Poussez le bouton - Dévissez la tête de la lampe. Eclairage ambience à éclairage spot - Tourner la tête de la torche afin de passer d'un faisceau ambience grand diamètre à un faisceau spot concentré. Tourner dans le sens inverse pour éteindre. Eclairage vertical de type bougie - Dévisser la tête de la lampe torche. Retourner la tête et insérer l'arrière de la lampe torche à l'intérieur de la tête retournée. La lampe torche se transforme en bougie. Pour changer l'ampoule - Dévisser la tête et tirer doucement sur l'ampoule pour l'extraire de la douille. Vérifier que les fils externes de l'ampoule de rechange sont bien droits. Insérer dans la douille. Une lampe de rechange se trouve à l'intérieur du capuchon d'assemblage.

Gracias por comprar una linterna de Mini Maglite®. Para registrar su nueva linterna Mag® visite nuestra página de Internet en [www.maglite.com](http://www.maglite.com). En nuestra página inicial solamente tiene que ir a "Registre su linterna". Para ver toda la línea de productos, dé un clic en "The Maglite® flashlight". Por favor revise toda la información de este panfleto.

**FUNCIONAMIENTO:** La parte más grande del resorte de la pila debe introducirse en la tapa posterior. Instale siempre las pilas con el extremo "+" apuntando hacia la cabeza de la linterna y el extremo "-" apuntando hacia la tapa posterior de la linterna. Interruptor - Haga girar la cabeza de la linterna. Iluminación de proyección a iluminación puntual - Haga girar la cabeza de la linterna para pasar de un haz de luz ancho hasta una luz puntual intensa. Invierta el movimiento para apagar la linterna. Modalidad de vela - Retire la cabeza de la linterna y pare la linterna sobre su tapa posterior para crear un efecto de vela. Cambio de bombilla - Desenrosque el conjunto de la cabeza y desprenda suavemente la bombilla del zócalo. Cerciórese de que las patillas de la bombilla nueva estén derechas; insértelas en el zócalo. Hay una bombilla de repuesto en la tapa posterior.
