Joint Meeting with PSPE
Topic: Helical Foundation, Soil Nails, and Push Pier Systems

This presentation will focus on the application, use, advantages and disadvantages of helical foundations, soil nails and push pier systems. The design, testing and construction of such systems will also be discussed.

Earn one PDH Credit

The technical presentation has been evaluated and accredited for 1.0 Professional Development Hour by the Pennsylvania Society of Professional Engineers to meet continuing education license requirements in New York, New Jersey and Pennsylvania.

Speaker: Jeff Kortan, P.E.
Director of Engineering
Foundation Supportworks, Inc.

Jeff Kortan is a geotechnical engineer and the Director of Engineering for Foundation Supportworks, Inc. (FSI). Jeff is involved in product design, product verification testing, preliminary design applications, project consulting, installation, sales, and marketing training, as well as developing and presenting education-based material.

Jeff has been involved in the piling and anchoring industry since January 2006. Jeff is a licensed professional engineer in Ohio, Nebraska, and Iowa, and a member of the American Society of Civil Engineers (ASCE) and the Deep Foundations Institute (DFI).
