

ROWAN UNIVERSITY FRESHMAN CLINIC I
Laboratory report score sheet

Team members:

Report component	Max Score	Score
Title Page	5	
Name of experiment		
Lab partners (full)		
Course name		
Number		
Instructor		
Abstract	10	
Purpose		
Key results		
Significance/theory		
Conclusions		
Introduction	10	
Objective/scope		
Relevance/importance		
Background/theory		
Equations		
What equations mean		
Methods and Materials (or Equipment)	10	
Equipment		
Materials		
Experimental procedure		
Results and Discussion	20	
All items completed		
Interprets results appropriately/links to theory		
Comparison with theory or other published results		
Analysis/discussion of experimental error		
Graphs and figures labeled appropriately		
Axes labeled with units		
Legends indicate correct variables		
Descriptive title with number		
Gray background gone		
Graphs referenced in text and explained		
Tables have titles, are numbered, and are formatted nicely		
Reference raw data & calculations in appendices (no raw data in results)		
Conclusion	10	
Consistent with stated objectives and results		
Future work/improvements expressed in professional manner		

References	5	
Cited appropriately in text		
Citation format properly followed		
Appendices	15	
Carbons of laboratory notebook pages included		
Sample calculations easy to follow, correct		
Labeled		
Writing style	10	
Appropriate tense		
Passive voice		
Spelling errors		
Grammar errors		
Appropriate word choice and sentence structure		
Formal tone		
Formatting	5	
Double-spaced and indented		
12-point font		
Headings same font, bold, line above & below		
Page numbers		
Equations numbered and centered		
Total	100
